

1. After working on yola sites, what do you think makes the difference between a good website and a bad one.

The difference between a good website and a bad one is, a good website will have lots of useful information, where a bad website will have useless information.

2. Explain what you think websites are for and why people visit them.

Websites are used for entertainment and learning certain things.

3. Explain all the following:

1. How to put a picture on your Yola site.
2. How to add a video to your Yola site.
3. How to add a link to your site.

1. You add a picture by uploading the picture, creating a picture box, and upload it in the box.

2. You add a video on Yola by creating an HTML box, getting the embedded code, copy and paste in the HTML notepad, apply the changes.

3. You add a link by copying and pasting the website HTML.

4. Explain why you think adding videos, paragraphs, links, and pictures make a good website.

Adding pictures and videos make a good website because they give information and they also grab the attention of the viewer.

5. Going step by step, explain how to make a Yola site

1. Go to Yola.com, and sign up.
2. Choose a theme, customize.
3. Name your web pages, add pictures, videos, text..
4. Save your changes by clicking save.
5. Click publish to web.
6. Your website is now complete.
